Professional Summary

B.Tech Mechanical Engineering graduate with a minor in Electrical and Electronics Engineering, looking to begin a career in the oil & gas, construction, or industrial sales sector as a Graduate Engineer. Possesses a good understanding of mechanical engineering fundamentals along with experience in CAD modelling, technical analysis, documentation, and coordinating with different teams during academic and project activities.

Interested in project execution, procurement support, technical sales, and site operations, with the ability to understand engineering drawings, support material planning, coordinate with vendors, and assist in client related requirements. A quick learner with a practical and adaptable approach to work, supported by good communication and organizational skills, capable of contributing effectively in fast-paced industrial and project environments.

Education

B.Tech in Mechanical Engineering, minor in Electrical and Electronics Engineering 2022 – 2026
Mar Athanasius College of Engineering (MACE), APJ Abdul Kalam Technological University
CGPA: 8.7 / 10 | GPA equivalent: 3.48 / 4.0
Best Outgoing Student Award (Mechanical Department 2022-2026)
Relevant Coursework: Engineering & Project Management, Industrial Engineering, Manufacturing Technology

Technical Skills

Design, Analysis & Documentation

- AutoCAD, SolidWorks, Creo Parametric, ANSYS, MATLAB
- MS Excel, MS Word, MS Project, MS PowerPoint

Engineering & Project Management

- CNC machining, Welding, Precision Grinding, 3D printing, Assembly workflow
- Quality management and dimensional verification
- Team leadership, Budget management, Vendor coordination

Relevant Experience

- Conference Convener | NCE3, MACE**

March 2026

 - Led the planning and execution of a National Level Conference (NCE3) at MACE, coordinating multiple technical tracks, publications, and stakeholder engagement
- Research Intern | CSIR-SERC, Chennai**

May 2025 – July 2025

 - Selected as one of three students nationwide for internship at India’s premier structural testing facility
 - Gained exposure to large-scale structural testing rigs and a 58-metre wind tunnel used for validating high-rise buildings and infrastructure
- Team Manager | Team Inferno (Automotive Club)**

Sep 2023 – Feb 2024

 - Led 35-member team through complete vehicle design, fabrication, and testing cycle
 - Supervised workshop activities including welding, machining, and assembly
- Sponsorship & Procurement Manager | SAE MACE**

May 2023 – July 2025

 - Raised over 4,800 AED through sponsorship negotiations
 - Managed procurement: vendor selection, quality verification, and timely delivery

Technical Projects

Hybrid Vertical-Axis Wind Turbine State Level Winner <i>Final Year Project</i>	June 2025 – March 2026
- Managed complete project lifecycle: 3D modeling, structural calculations, and prototype fabrication - Design and product patent filing in progress - State Level Winner, Young Innovators Programme (YIP 8.0) held by Kerala Development and Innovation Strategic Council (K-DISC); selected as among the top team from over 2216 participants statewide.	
Amphibious Robot Development (AMPHIFINBOT) AIR 4, SAE India	Feb 2025
- Designed propulsion mechanism and coordinated fabrication using 3D printing - Achieved All India Rank 4 in SAE student convention	
Robotic Manipulator Arm Development European Rover Challenge	Aug 2024
- Worked on 6-DOF manipulator subsystem integration manufacturing support, and assembly activities - Applied terrain-based dynamic constraints using Gazebo and ROS integration	
Go-Kart Design & Fabrication (GKDC 2024) AIR 8, National	Feb 2024
- Led structural design of chassis frame with focus on weight optimization and safety - Achieved 8th place among 110 teams in electric vehicle category	
Formula-Kart Design Challenge (FKDC 2023) AIR 2 (Runner-up), National	Oct 2023
- Achieved All India Rank 2 for overall performance and chassis design - Managed fabrication schedule to meet competition deadline	

Leadership & Professional Development

President Elect, ISHRAE Student Chapter, MACE	July 2025 – May 2026
- Founded ISHRAE MACE student chapter, focused on HVAC, building services, and student programs - Organized technical workshops relevant to construction industry	
Secretary, SAE MACE	July 2025 – May 2026
- Coordinated 25+ engineering events including workshops and competitions - Increased student membership and participation by 75%	

Languages

English: Fluent / Professional Working Proficiency
Hindi: Intermediate / Working Proficiency
Malayalam: Fluent / Native Proficiency
Arabic: Beginner / Elementary Proficiency
Tamil: Beginner / Elementary Proficiency

Additional Interests

Artist: Handmade portraits and pencil drawings
Sports: Volleyball(Team Captain), Badminton, Football, Cricket
Fitness: Committed to maintaining physical health
